

Advanced: Cooking Without Recipes

Students that have attended a Blue Ribbon summer camp, or the equivalent, can join us for an advanced course. Our camp *Cooking Without Recipes* will make it possible for you to venture into the kitchen and create a delectable meal without recipes. We'll start with an outline of basic ingredients - items that are recommended to always be stocked in your home pantry. You'll learn the elements of traditional, contemporary and classic ethnic flavor combinations and through brainstorming exercises you'll learn to be creative with them. Using tried and true familiar culinary techniques, with the comfort of a professional chef's guidance, you'll begin to navigate the waters of cooking without recipes. We'll help you gain an understanding of how to utilize seasonal or favorite ingredients (that you choose) in new and creative ways. Gain the confidence needed to create interesting and innovative food and bring new flavors and dishes to share at your family's dinner table - using no recipes - just celebrating your personal creativity and passion for flavorful taste.

This camp will culminate with a Graduation Dinner on Thursday night that will be conceived throughout the week as your creative whimsy, and that of your fellow students, is unleashed.
